Wrap up…

- AICCSA’2014 is the 11th international edition started in 2001 in Beirut, Lebanon, thanks to the efforts of ACS
- Aim: forum between researchers, IT players and stakeholders to share results and visions on Computer Systems and their applications, with:
  - A focus on both **theoretical** and **application/projects** sides
  - A link with the industry to exchange on **Best Practices, Requirements Challenges**…
  - A link to governments visions: exchange with Research Funding agencies…
  - A focus on Quality: Good selection of papers (42%), commitment to make visibility to your work (IEEE, ranked journals…)  
  - **Networking for young researchers**…
  - Platform to build innovative projects (through QNRF, Horizon2020, NSF…)
Great that we had more space for junior researchers to build their network through a new **Doctoral Workshop**

Good interactions between Researchers/IT_Providers/End_Users…

Excellent involvement of stakeholders, partners and scientific bodies

High scientific level and sessions attendance

Great social program
